This is the description of McKesson's Controlled Substance Monitoring Program(CSMP) from Rite Aid as well as a spreadsheet calculating what a store could increase to in one calendar year if they started with 1000 dosage units of a specific controlled substance chemical.

Controlled Substance Purchasing Limits

- McKesson Controlled Substance Monitoring Program (CSMP)
 - Establishes thresholds for purchases of controlled substances
 - Based on individual pharmacy's movement history
 - Established per calendar month
 - Individual Base Code
 - "Active Ingredient"
 - All strengths/dosage forms/combinations
 - Liquids, tablets, topicals, Oxy/APAP combo, etc.
 - Based on the highest month's movement in the last 12 months
 - Highest number of units purchased in a calendar month
 - Plus 15% for CIII-V and 50% for CII's

Thanks
Mike
